

Eurocentral, Lanarkshire

TOTAL VALUE **DURATION**
£200M **25Y**

Project Description

As one of Scotland's leading industrial and logistics hubs, Eurocentral – our £200m scheme delivered through our joint venture with Scottish Enterprise, Eurocentral Partnership – has transformed over 650 acres of underutilised land in Lanarkshire into a booming business destination.

Located between Glasgow and Edinburgh, Eurocentral is home to many high-profile occupiers and has provided over seven million sq ft of prime commercial space, which has created thousands of jobs and has significantly boosted the local economy.

Eurocentral is a gateway to the rest of the UK and Europe as one of the region's most connected schemes, with its own junction on the M8, providing direct access to the national motorway network. The scheme is less than 30 minutes' drive from the country's two major airports and boasts its own on-site rail freight terminal.
