Project Description

Key points

Hale Wharf is being delivered by Waterside Places - our joint venture with the Canal & River Trust - in partnership with the Mayor of London and London Borough of Haringey.

The scheme is an exciting development in the heart of one of the Mayor of London's Housing Zones. Once complete, the wider scheme will deliver up to 505 high-quality, canal-side homes, extensive public realm improvements, along with a wealth of commercial and leisure space. New residents will benefit from access to the Paddock Community Nature Park that will play a key role in the council's new 'Green Grid Strategy', which seeks to improve the space for the local community.

Lock 17 is our first phase of homes situated off Ferry Close in Tottenham Hale, bringing forward 141 high-quality apartments.
